

DAVIDSON ROAD RACE REUNION DRRR - 2007

Davidson, Saskatchewan

For immediate release,

The Davidson Road Race Reunion committee hereby announces the proposed 50th Anniversary celebrations and nostalgia event to be held on May 20, 2007

The first formal race car road race that was actually sanctioned in Saskatchewan was held on the May long weekend of 1957 at the abandoned British Commonwealth Air Training Program (BCATP) airstrip that remained near Davidson. There were many tremendous years of Sports Car Races held at the Davidson circuit, with some of Canada's foremost road racing icons as participants.

A committee of sports car club enthusiasts has been formed to present this event in an effort to rekindle fond memories and show off some period correct cars, including race cars from "back in the day". The old track is too degraded to do any hot laps, but there will be track-like activities to see some vintage and current race cars. Events start at 11AM on Main Street. Lunch will be available. In support of the volunteer fire department - \$1 admissions/donations

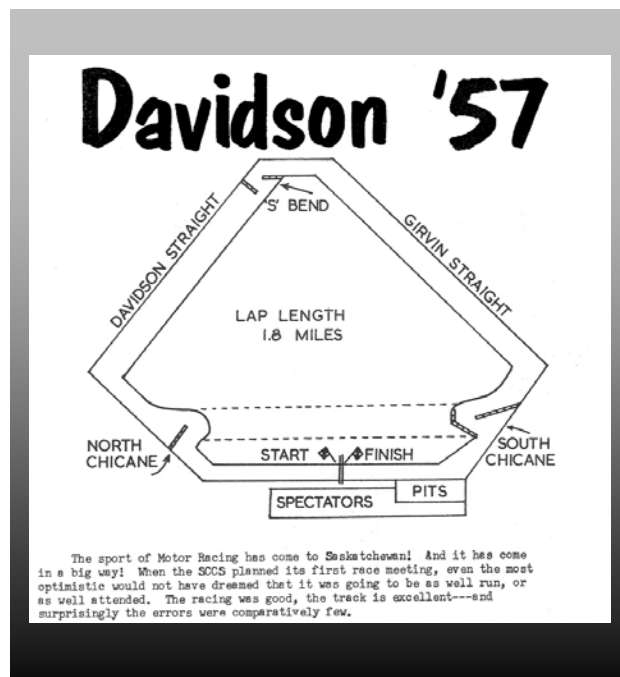

Plans include;

- Saturday night Socials
- Sunday Brunch – Local Merchants
- Car show of vintage and current cars
- Old photos, posters, results display

All past competitors, workers, spectators or current enthusiasts are encouraged to attend. Bring your old photos, results, posters and programs to share.

The sport of Motor Racing has come to Saskatchewan! And it has come in a big way! When the S.C.C.S. planned its first race meeting, even the most optimistic would not have dreamed that it was going to be as well run, or as well attended. The racing was good, the track is excellent---and surprisingly the errors were comparatively few.
